

Loans / Mortgages

Escrito por johntimber - 19/04/2018 12:11

Hi,

I'm new to MMEX and I really really like it, there is just one thing: Loans.

I have one simple loan, without seperat interest payments, just a Term Account with a negative start deposit and paymens from my savings account to the Term account "Loan". Unfortuanetly these transfers aren't visible. I've read the post "How to I track auto and mortgage loans?" but I don't really understand how the described procedures should work.

So my question is: Is there a better way to track loan payments by now?

Any help will be appreciated.

I didn't find the right solution from the Internet.
