

Cannot close investment

Escrito por johntimber - 19/04/2018 12:17

Hi,

The only way I found not to display investments I no longer hold under the corresponding account is to close them and select the setting "do not display closed accounts". The problem is that there are a couple of investments that I no longer hold, whose balance is zero, and yet I cannot close them, because the option is grayed out. Anyone any idea why?

Any help will be appreciated.

I didn't find the right solution from the Internet.

¡Buenas! He tenido una situación parecida, no podía cerrar las inversiones, he buscado toda la red, se lo preguntaba a muchos, al final he encontrado a la gente bondadosa que me ha ayudado a hacerlo. Si el tema sigue siendo actual para usted, pensaremos algo.
